1 Vision

A prosperous and sustainable Nordic-Baltic region

2 Mission

The Nordic Investment Bank strengthens the competitiveness, sustainability and resilience of the region.

NIB is the international financial institution of the Nordic and the Baltic countries. The Bank adds value and complements commercial lending in support of the competitiveness, sustainability and resilience of the region. Further integration between the member countries' economies is a core part of the Bank's purpose.

NIB strengthens regional **competitiveness** by financing:

- innovation and technological progress
- infrastructure
- human capital and equal socioeconomic opportunities
- market efficiency and business environment

NIB's **sustainability** financing focuses on:

- climate change mitigation and adaptation
- sustainable use and protection of water resources
- transition to a circular economy
- pollution prevention
- restoration of biodiversity and ecosystems

NIB supports the **resilience** of the region by financing:

- critical infrastructure and energy security
- resilient supply chains and resource availability
- defence and security capabilities
- space and cyber security

The Bank stands ready to act as a counter-cyclical financier in times of crisis. By providing long-term financing to its customers, NIB is making a lasting impact on the competitiveness, sustainability and resilience of the region.
